

Name _____

1892 vs. Current Class Census

1. What occupations are listed on the class census?
2. On the class census how many different occupations were available to men? How many to women?
3. What was the most common type of occupation of men in 1892? For women?
4. How have the job opportunities for men and women changed since 1892? (Look at types of jobs as well as number of choices.)
5. How many people were born in another country on your class census? In 1892?
6. Please try to imagine how employment and population may change in your town in the next 100 years. Write a census page for your predicted future population on the back of this worksheet.
